Summary

Highly motivated IT professional with 6 months of internship experience and hands-on expertise in web development and deployment. Proficient in a variety of technologies including Python, Django, Flask, PHP, Java, JavaScript, HTML, CSS, Bootstrap, React, and DBMS. Successfully deployed multiple projects, including hosting PHP applications on GoDaddy, WordPress sites on Hostinger, and a Python project using Flask on a server with IP mapping through NAT. Passionate about building efficient, scalable applications and continuously expanding technical knowledge to deliver innovative software solutions. Seeking an entry-level software development position to contribute and grow in a dynamic team environment.

Internship Experience
